

Photo Block

The Photo Block is used to display multiple photos on your website.

Add Photo Block

1. Click the Add Content button.
2. Select **Photo**.

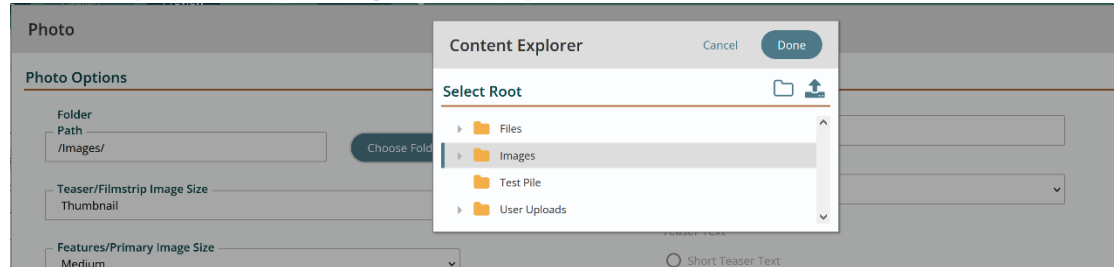

3. Configure your Photo block.

The screenshot shows the 'Photo Options' configuration form. The form is titled 'Photo' and has a section for 'Photo Options'. The options are as follows:

- Folder Path:** A text input field with a green circle 'A' next to it and a 'Choose Folder' button.
- Teaser/Filmstrip Image Size:** A dropdown menu with a green circle 'B' next to it.
- Features/Primary Image Size:** A dropdown menu with a green circle 'C' next to it.
- Popup/Detail Image Size:** A dropdown menu with a green circle 'D' next to it.
- Folder Navigation:** A section with a question mark icon and two radio buttons: 'Enabled' and 'Disabled'. The 'Disabled' option is selected, with a green circle 'E' next to it.
- Filmstrip Options:** A section with two checkboxes: 'Show small thumbnails' and 'Show previous/next buttons'. Both are checked, with a green circle 'F' next to the first checkbox.

- a. Click on Choose Folder next to the Folder field and the Content Explorer will display. Select the folder(s) where photos are stored in TitanCMS workstation.
By selecting the folder, the sizes of Thumbnail, Small, Medium and Large will auto populate the Image Size drop downs.

- b. Set the size selections for Teaser/Filmstrip Image Size:
 - Thumbnail (default value)
 - Large
 - Medium
 - Small
- c. Set the size selections for Features/Primary Image Size:
 - Medium (default value)
 - Large
 - Small
 - Thumbnail
- d. Set the size selections for Popup/Detail Image Size:
 - Large (default value)
 - No Large Image (Website display, clicking image will not display a pop up)
 - Original
 - Medium
 - Small
 - Thumbnail
- e. Select if you'll have Folder Navigation (enable/disable).
This option requires that the File Pile be configured for folder navigation in Titan Admin Workstation. This association will map all folders within the selected file pile to this block. The default is disabled.
- f. Determine Filmstrip Options:
 - Show small thumbnails - default checked
 - Show Previous/Next Buttons - default checked
